

BECOME A

CERTIFIED DATA PRIVACY SOLUTION ENGINEER (CDPSE)

CERTIFIED DATA PRIVACY SOLUTIONS ENGINEER (CDPSE)

is focused on validating the technical skills and knowledge it takes to assess, build and implement a comprehensive privacy solutions. CDPSE holders can fill the technical privacy skills gap so that your organization has competent privacy technologists to build and implement solutions that mitigate risk and enhance efficiency.

Who Should Get the CDPSE Certification?

IT professionals engaged in creating and implementing technical privacy solutions and data scientists/analysts who mine and analyze data for customer insights.

Below are some IT job roles that CDPSE would be applicable to:

- Consultant
- Data Analyst
- Data Scientist
- Domain Architect Legal Care/Compliance/Privacy
- IS Engineer User Data Protection
- IT Project Manager
- Privacy Advisor/Manager
- Privacy Analyst/Engineer
- Privacy Solutions Architect
- Software Engineer

Build a world class technically proficient IT privacy team

CDPSE certification instantly declares your team's expertise in building and implementing privacy solutions aligned with organizational needs and goals.

CDPSE provides a valid and reliable means for enterprises to identify technologists who are competent in incorporating privacy by design into technology platforms, products and processes, communicating with legal professionals, and keeping the organization compliant efficiently and cost effectively.

CDPSE proves your team has the technical skills and knowledge it takes to assess, build and implement a comprehensive privacy solution while enhancing business value, customer insights and trust—ultimately improving your organization's image.

Get your team certified and ready to tackle the challenges of the ever-changing privacy landscape.

A CDPSE CERTIFICATION
