Learning objectives

- Recognize the context, the benefits and target audience of the COBIT 2019 Framework
- How to align IT goals with strategic business objectives using tools designed to give governance a wider perspective, and practitioners more flexibility.
- Comprehend the value derived from IT, necessary resources, and potential risks in the process of building a relationship between the business and IT.
- Understand the impact that design factors can have on the design of a governance system
- Recall the alignment of COBIT with other applicable frameworks, standards and bodies of knowledge.
- Prepare for the COBIT 2019 Foundation exam.

Exam

Exam voucher is included in the price, allowing to take the exam online on the ISACA website. Two hours (120 minutes) are foreseen to complete the exam. Each multiple-choice question has three options with only one correct answer. A score of 65% or higher is required to pass the exam.
