

## CyberSec Trainer / Coach (Freelance)

### Mission

BeCode trains tomorrow's digital talents through inclusive, job-focused tech bootcamps. We are looking for a full-time freelance Cyber Security Trainer/Coach to guide a group of learners toward their first career in cybersecurity.

### Your Role

- Designing and delivering hands-on challenges, workshops, and learning activities based on active pedagogy.
- Facilitating daily rituals (workshops, standups, watches, etc.).
- Providing technical guidance and helping learners overcome difficulties.
- Conducting technical reviews and assessing learning progress.
- Building a collaborative, supportive group dynamic.
- Encouraging participation in hackathons, meetups, and external projects.
- Contributing to BeCode's pedagogical development and supporting internal & B2B training projects.

### Your Profile

- Practical experience in Cyber Security (e.g. SOC analyst, pentester, security consultant, IT trainer).
- Solid understanding of networking concepts and system administration.
- Experience with scripting languages such as Python, Bash, or PowerShell.
- Familiarity with security tools and practices (e.g. Nmap, Splunk, Sysmon, Volatility, vulnerability assessment).
- Basic knowledge of cloud environments (AWS, Azure).
- Strong communication, patience, and empathy.
- Passion for learning, teaching, and sharing knowledge.
- Comfortable working in English (French or Dutch is a plus).

### What We Offer

- A mission with strong social impact: helping people start sustainable careers in IT.
- A full-time freelance collaboration.
- A hybrid, supportive, and collaborative working environment.
- Opportunities to contribute to BeCode's pedagogy and projects.

 Interested? Apply now and help shape the next generation of digital talent!
