

## **Cyber Strategy & Risk Consultant**

### **What you will work on:**

- Analyze enterprise security programs and infrastructure across a variety of sectors.
- Assess IT and security processes, risks, controls and compliance against relevant standards; identify gaps and recommend meaningful improvements.
- Collaborate with senior management to design cybersecurity strategies, roadmaps and sustainable solutions (covering processes, tooling and people models).
- Act as a bridge between executives and technical teams, helping drive change in areas such as data protection, security operations, privacy and business continuity.
- Translate technical vulnerabilities into clear business risks and present concise, accessible findings.
- Support clients in developing cybersecurity procedures and aligning with best practices.
- Review and strengthen incident response capabilities, facilitate exercises and guide remediation plans.

### **What do you need:**

- A Master's degree and at least 3+ years of experience in cybersecurity or information risk management.
- Knowledge of frameworks such as ISO 27001, NIST CSF/800-53, CIS or the Cybersecurity Maturity Model.
- Experience developing policies, procedures and controls.
- An open, honest mindset and eagerness to learn from both successes and challenges.
- An entrepreneurial approach, feeling comfortable managing projects end-to-end.
- Fluency in English and Dutch or French.
- Certifications such as CISSP, CEH, CISM, CISA, GIAC or GSEC are a plus; ISO Lead Auditor is preferred.
- Strong communication, facilitation, leadership and presentation skills.
- Confidence working with AI tools, paired with a thoughtful, critical mindset in applying AI in daily tasks and team collaboration.

### **What can you expect:**

As a certified [Top Employer](#) we offer:

A **reward package** that goes beyond salary. Think **premium electric company car** (BMW, Mercedes,..., etc.) + charging card, net allowances, **bonus**, your choice of **Apple/Android device**, and lots of **extras** you can personalize with our cafeteria plan.

Peace of mind with **full insurance** coverage. We've got you covered with group and hospitalization insurance, plus **optional extras** like dental, eye care, and medical consultations.

Work in your own way. Enjoy **flexible** hours, **hybrid** working, and even the chance to **work from anywhere in the world** for 20 days a year.

We're an **international** community that thrives on **trust and collaboration**. With **inclusive communities** for gender, LGBTQI+, internationals, and many more, you'll truly feel like you can come as you are.

Your growth = our priority. You'll get **training and development tailored** to your job, level and even personal goals, plus support from your personal **buddy** and **performance manager**.

More than colleagues. From **sport** challenges (Antwerp 10 Miles, Brussels Marathon, 1000km for KOTK) to **volunteering** (river clean-ups, tree planting), we make impact together through our Together@KPMG & KPMG Foundation programs.

We care about you. With initiatives such as confidential counselors, an employee assistance program, hotlines and more, we will support your **emotional and mental health** throughout your career.

**Fun** included. Expect team events, afterworks, and plenty of opportunities to **connect outside the office**, for those who want. Follow @KPMGBelgium on Instagram to find out what life at KPMG is really like.
