

## **Identity & Access Management (IAM) Consultant**

### **What will you work on:**

In this role, you'll define the IAM (Identity & Access Management) strategy to align with business goals, IT standards, and regulatory requirements.

- You'll collaborate closely with clients to assess, design, and implement sustainable IAM solutions, processes, and team structures.
- You'll identify and clearly communicate identity-related risks, analyze current workflows, and recommend improvements based on gaps and priorities.
- You'll help develop practical IAM procedures, enhance capabilities, and support the implementation of improvements using tools like SailPoint, Okta, Microsoft, and CyberArk.
- You'll also design and implement technical IAM solutions, conduct tabletop exercises, and guide clients through remediation and optimization.

#Advisory #Technology #DigitalRiskManagement #CyberDefense #DigitalRisk

### **What do you need:**

- You have 3+ years of experience in IAM and related services.
- You communicate in a direct, open, and honest way and value learning from both success and challenges.
- You enjoy taking ownership and feel comfortable leading projects from start to finish.
- You're fluent in English and Dutch or French, and you communicate clearly and confidently with different stakeholders.
- Certifications like CISSP or CISM, or experience with tools like SailPoint, Okta, CyberArk, and Azure AD, are a plus.
- You understand key IAM concepts like access controls, LDAP, RBAC, authentication, and PKI.
- You are confident working with AI tools and bring a thoughtful, critical mindset when using AI in your daily work and team collaboration.

### **What can you expect:**

As a certified [Top Employer](#) we offer:

A **reward package** that goes beyond salary. Think **premium electric company car** (BMW, Mercedes,..., etc.) + charging card, net allowances, **bonus**, your choice of **Apple/Android device**, and lots of **extras** you can personalize with our cafeteria plan.

Peace of mind with **full insurance** coverage. We've got you covered with group and hospitalization insurance, plus **optional extras** like dental, eye care, and medical consultations.

Work in your own way. Enjoy **flexible** hours, **hybrid** working, and even the chance to **work from anywhere in the world** for 20 days a year.

We're an **international** community that thrives on **trust and collaboration**. With **inclusive communities** for gender, LGBTQI+, internationals, and many more, you'll truly feel like you can come as you are.

Your growth = our priority. You'll get **training and development tailored** to your job, level and even personal goals, plus support from your personal **buddy** and **performance manager**.

More than colleagues. From **sport** challenges (Antwerp 10 Miles, Brussels Marathon, 1000km for KOTK) to **volunteering** (river clean-ups, tree planting), we make impact together through our Together@KPMG & KPMG Foundation programs.

We care about you. With initiatives such as confidential counselors, an employee assistance program, hotlines and more, we will support your **emotional and mental health** throughout your career.

**Fun** included. Expect team events, afterworks, and plenty of opportunities to **connect outside the office**, for those who want. Follow @KPMGBelgium on Instagram to find out what life at KPMG is really like.
