

Senior IT Auditor

What you will work on:

- Performing technology audits and advisory projects within multi-disciplinary teams.
- Collecting data, analyzing systems and gaining a clear understanding of client operations.
- Helping plan and execute risk-based audits, reporting results and following up on recommendations.
- Leading smaller audits from start to finish, ensuring high quality and timely delivery.
- Keeping engagement leaders informed and identifying opportunities for additional services.
- Building strong client relationships and collaborating closely with your team.
- Staying up to date with market trends and sharing knowledge to support junior colleagues.
- Quickly integrating into the team and offering support across projects as needed.

What you need:

- A Master's degree and at least 4 years of experience in IT audit.
- Familiarity with controls assurance in complex IT environments; experience with cloud, automation or emerging technologies is a plus.
- Understanding of key business processes and the ability to assess IT risks and controls within a broader business context.
- Clear communication skills with stakeholders at all levels and the ability to guide small teams effectively.
- Strong relationship-building skills, consistent delivery of high-quality work on time and within budget, and a proactive mindset.
- An organized, client-focused approach and readiness to take initiative and contribute meaningfully.
- Certifications such as CISA, CISM or CIA are a plus.
- Curiosity, eagerness to keep learning, and fluency in English and Dutch or French, with strong reporting and presentation skills.
- Confidence in working with AI tools, alongside a thoughtful and critical approach to using AI in daily tasks and team collaboration.

What can you expect:

As a certified [Top Employer](#) we offer:

A **reward package** that goes beyond salary. Think **premium electric company car** (BMW, Mercedes,...., etc.) + charging card, net allowances, **bonus**, your choice of **Apple/Android device**, and lots of **extras** you can personalize with our cafeteria plan.

Peace of mind with **full insurance** coverage. We've got you covered with group and hospitalization insurance, plus **optional extras** like dental, eye care, and medical consultations.

Work in your own way. Enjoy **flexible** hours, **hybrid** working, and even the chance to **work from anywhere in the world** for 20 days a year.

We're an **international** community that thrives on **trust and collaboration**. With **inclusive communities** for gender, LGBTQI+, internationals, and many more, you'll truly feel like you can come as you are.

Your growth = our priority. You'll get **training and development tailored** to your job, level and even personal goals, plus support from your personal **buddy** and **performance manager**.

More than colleagues. From **sport** challenges (Antwerp 10 Miles, Brussels Marathon, 1000km for KOTK) to **volunteering** (river clean-ups, tree planting), we make impact together through our Together@KPMG & KPMG Foundation programs.

We care about you. With initiatives such as confidential counselors, an employee assistance program, hotlines and more, we will support your **emotional and mental health** throughout your career.

Fun included. Expect team events, afterworks, and plenty of opportunities to **connect outside the office**, for those who want. Follow @KPMGBelgium on Instagram to find out what life at KPMG is really like.
